

**Central Islip School District  
Smart Schools Investment Plan (SSIP)**

# New York Smart Schools Bond Act

- ❑ **Governor Cuomo authorized the Smart Schools Bond Act (SSBA) in the 2014/15 NYS budget.**
  - ▶ A total of \$2,000,000,000 was appropriated state-wide.
  
- ❑ **Proceeds from the bond are used to “improve learning opportunity for public and nonpublic school students” by funding projects for:**
  - ▶ Acquire learning technology (i.e. whiteboards, servers, PC, tablets, etc.).
  - ▶ Install high-speed broadband or wireless internet connectivity.
  - ▶ Construct, enhance and modernize educational facilities to accommodate Pre-K and replace portable classrooms.
  - ▶ Install high-tech security features.

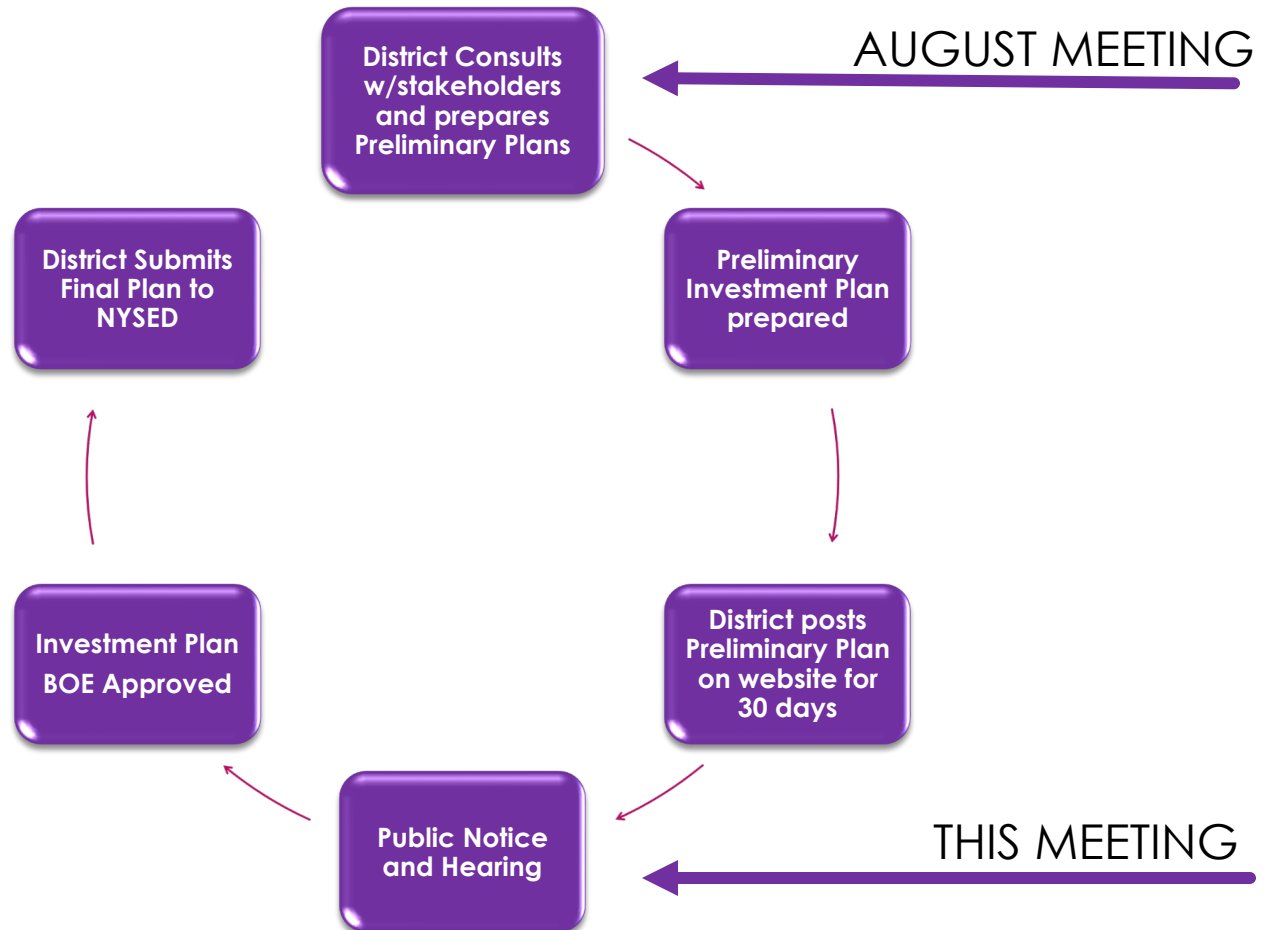

# District Allocation

- ▶ The Central Islip school district was awarded an allocation in the amount of \$9,451,402.
- ▶ The funds must be spent using school district dollars then seek reimbursement from New York state after the funds have been spent.
- ▶ Under the current guidance, there has been no time limit placed on purchases to be reimbursed as well as no requirement to spend all of the funds at one time.

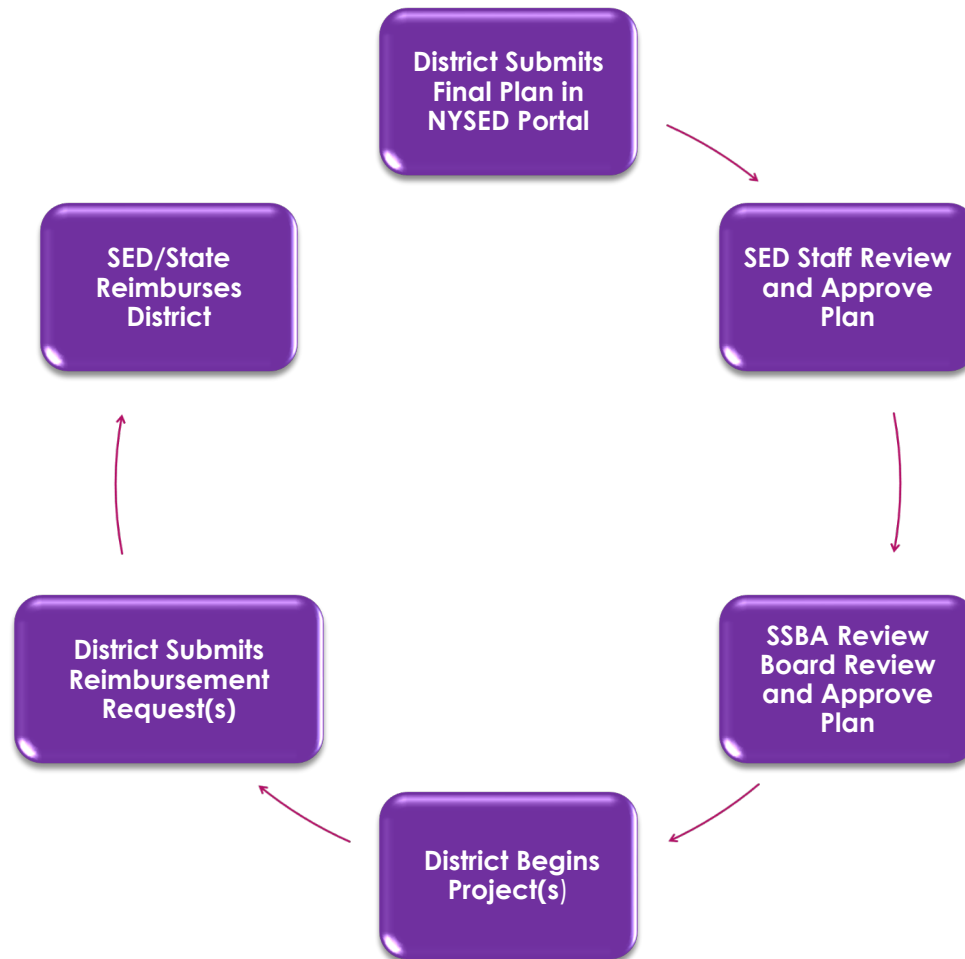

# SSIP District Process

# SSBA Review Board Process

# Stakeholders Involvement...

- ▶ June-August: CI District developed and submitted to the Board a Preliminary Smart Schools Investment Plan at the August Board Meeting.
- ▶ This Preliminary Plan was posted on the district website for more than 30 days which included information to which any written comments on the Plan should be sent.
- ▶ Tonight, the Board is conducting a hearing that will enable stakeholders to respond to the Preliminary Plan followed by Board approval.
- ▶ Final plan will be posted on district website.
- ▶ District will submit Smart Schools Investment Plans through the Business Portal for review.

# Preliminary Smart School Investment Plan Expenditures

Project	Estimated Expenditure	
Security Camera Enhancements	\$2,000,000	Install High Tech Security
Physical Security Improvements	\$5,300,000 <del>\$3,500,000</del>	
Server Modernization	\$250,000	Install High Speed Broadband
Wireless Network Expansion	\$500,000	
PC Modernization	\$200,000 <del>\$1,250,000</del>	Acquire Learning Technology
Laptop Carts	\$750,000	
Interactive Whiteboards	\$0 <del>\$750,000</del>	
Maker Space and STEM Resources	\$175,000	
Multimedia Studio and Streaming	\$250,000	

# Security Modernization

- ▶ Single software management suite for security cameras, door access, staff IDs, intrusion alarms for an all-inclusive single security suite.
- ▶ Replace analog and older cameras with new HD IP Cameras
- ▶ Integrate door access, security alarms

# Security Modernization

- ▶ Secured network
- ▶ Remote access
- ▶ Increase Storage
- ▶ Safeguard footage for legal proceedings

# Physical Security Improvements

## Modification of Entrance Vestibules

Renovate entrance vestibules to function as full security vestibules with dip-windows and security glass, and maintain adjacency of primary Guard station.

INTERBANK  
EQUIPMENT

# Physical Security Improvements

## Expand Exterior Door Access System

- ✓ Include coverage of all exterior doors for “door ajar” notifications via an operating system layered with security cameras
- ✓ Activate fob access via ID Cards, unify system and relate authorization to Active Directory Database

# Physical Security Improvements

## Replace Classroom Doors and Locks

Existing Classroom Doors

- New Doors with:
- Consistent Size Glass Panes with Safety Film
  - New Closers to Replace Obsolete Closers
  - Card-based WiFi or Wireless Locks.....

# Physical Security Improvements

Replace Conventionally Keyed Locks with WiFi/Wireless Technology

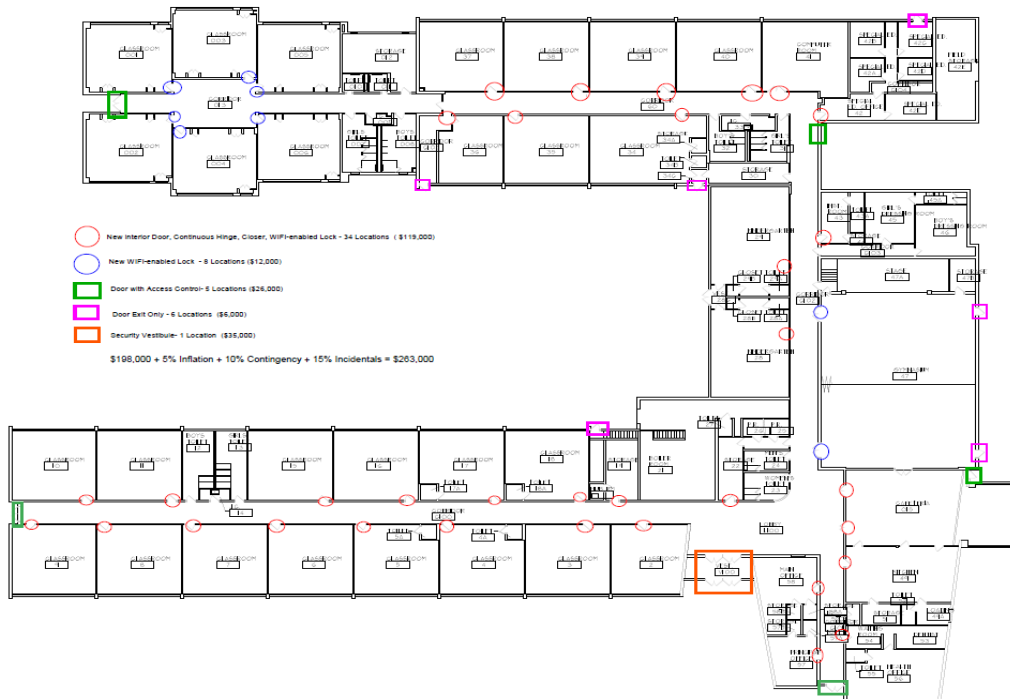

Conventional Door Locks are Replaced with WiFi/Wireless Technology to Simplify Lock-Downs and the Potential of Weakened Security and Expenses Resulting from Misplaced Keys

# Physical Security Improvements

## Burglar/Intruder Alarm

Utilize Door Access System and Camera System to Function as Burglar Alarm System Thereby Replacing the Existing Obsolete Burglar Alarms

# Student Technology Devices

## Laptop Carts

Additional Laptop Carts at each school to ensure adequate saturation for instruction, research and future on-line State testing.

# Student Technology Devices

## PC Replacement

Replace aging classroom and lab computers with brand new touch screen modern workstations and 3D technology in some science rooms.

# Student Technology Devices

## PC Replacement

Replace aging SmartBoard and SmartTV computers with brand HP Elite Mini computers with additional processing and memory speeds.

# Student Technology Devices

## 3D Printers

Enhance technology and some science classroom experiences with 3D Printers

# Student Technology Devices

## Arduino and LittleBits Electronics resources & Robotics Enhancements

Add some robotics to our elementary science curriculum Littlebits while enhancing the Middle School and High School programs.

# Student Technology Devices

## Virtual Reality Stations

Virtual Reality learning experience, including science, expeditions, coding, communication and distance learning.

# Multimedia Studio and Streaming

- ▶ Updated TV Studio
- ▶ Audio Recording Capabilities
- ▶ Mobile Streaming Carts
- ▶ Web Conferencing and Distance Learning
- ▶ Multimedia Live Streaming and Broadcasting

# Next steps

- ▶ Public Posting of Final Approved Plan on the District Website
- ▶ Submission for State Review
- ▶ Questions?
